

# CONSENT FORM

for

## UROLOGICAL SURGERY

(Designed in compliance with  consent form 1)

### PATIENT AGREEMENT TO INVESTIGATION OR TREATMENT

#### Patient Details or pre-printed label

<b>Patient's NHS Number or Hospital number</b>	
<b>Patient's surname/family name</b>	
<b>Patient's first names</b>	
<b>Date of birth</b>	
<b>Sex</b>	
<b>Responsible health professional</b>	
<b>Job Title</b>	
<b>Special requirements</b> <i>e.g. other language/other communication method</i>	

Patient identifier/label

This leaflet is written in the BAUS style and the information is taken from the relevant BAUS information leaflet (11 Jan 2014)

<b>Name of proposed procedure</b> (Include brief explanation if medical term not clear)	<b>ANAESTHETIC</b>
Epididymectomy (surgical removal or part or all of the epididymis - the sperm carrying mechanism behind the testicle)	- GENERAL/REGIONAL - LOCAL - SEDATION

**Statement of health professional** (To be filled in by health professional with appropriate knowledge of proposed procedure, as specified in consent policy) I have explained the procedure to the patient. In particular, I have explained:

**The intended benefits** Removal of part or all of the epididymis

**Serious or frequently occurring risks** including any extra procedures, which may become necessary during the procedure. I have also discussed what the procedure is likely to involve, the benefits and risks of any available alternative treatments (including no treatment) and any particular concerns of this patient.

Common (greater than 1 in 10) <ul style="list-style-type: none"><li>- swelling of the scrotum lasting several days</li><li>- seepage of yellowish fluid from the wound several days after surgery</li></ul> Occasional (between in in 10 and 1 in 50) <ul style="list-style-type: none"><li>- blood collection around the testis which resolves slowly or requires surgical removal</li><li>- possible infection of the wound or the testis requiring further treatment with antibiotics, or surgical drainage</li><li>- failure to relieve the symptoms of epididymal pain</li><li>- damage or shrinkage of the testis if the blood supply is affected by the operation</li></ul> Rare (less than 1 in 50) <ul style="list-style-type: none"><li>- none</li></ul>	<b>COPY FOR PATIENT'S NOTES</b>
--	---------------------------------

**A blood transfusion** may be necessary during procedure and patient agrees **YES or NO (Ring)**

**Statement of patient**

Please read this form carefully. If your treatment has been planned in advance, you should already have your own copy of page 2, which describes the benefits and risks of the proposed treatment. If not, you will be offered a copy now. If you have any further questions, do ask - we are here to help you. You have the right to change your mind at any time, including after you have signed this form.

- I agree**
- to the procedure or course of treatment described on this form.
  - to a blood transfusion if necessary
  - that any tissue that is normally removed in this procedure could be stored and used for medical research (after the pathologist has examined it) rather than simply discarded. PLEASE TICK IF YOU AGREE
- I understand**
- that you cannot give me a guarantee that a particular person will perform the procedure. The person will, however, have appropriate experience.
  - that I will have the opportunity to discuss the details of anaesthesia with an anaesthetist before the procedure, unless the urgency of my situation prevents this. (This only applies to patients having general or regional anaesthesia.)
  - that any procedure in addition to those described on this form will only be carried out if it is necessary to save my life or to prevent serious harm to my health.
  - about additional procedures which may become necessary during my treatment. I have listed below any procedures which **I do not wish to be carried out** without further discussion.

<b>Signature of Patient:</b>		<b>Print please:</b>	<b>Date:</b>

**A witness should sign** below if the patient is unable to sign but has indicated his or her consent. Young people/children may also like a parent to sign here. (See DOH guidelines).

Signed \_\_\_\_\_  
 Date \_\_\_\_\_  
 Name (PRINT) \_\_\_\_\_

**Confirmation of consent** (to be completed by a health professional when the patient is admitted for the procedure, if the patient has signed the form in advance). On behalf of the team treating the patient, I have confirmed with the patient that s/he has no further questions and wishes the procedure to go ahead.
